Only in New Orleans

Second Line Parade

Whether celebrating one of New Orleans' lively second line krewes, the life of a loved one, or a well-deserved Saints victory, second lines are a quintessential part of New Orleans culture. Visits to the city won't feel complete until you've experienced a second line.

Geaux Cups (To-Go Cups)

In New Orleans, the good times roll well beyond the confines of restaurants, bars, clubs, and concerts. Grab your favorite cocktail (or mocktail) and GEAUX (go)! This unique perk makes tailgating, second lining, and leisurely strolls throughout the city even better.

Above Ground Cemeteries

Not many other places in the world can say that cemeteries are a must-visit attraction, but New Orleans is different. Because of its unique geographical position, tombs lie above ground rather than under, and the outcome is stunning.

The New Orleans Streetcar

New Orleans is in the history book for the oldest continuously operating streetcar line in the world, the St. Charles line, which has been operating since 1835. Taking a ride on the streetcar in New Orleans is like taking a step back in time.

New Orleans People & Culture

More than anything else, it's the local culture that makes New Orleans unique. Those born and raised in the Crescent City who contribute to the city's vibrant culture—from everyday locals, Mardi Gras Indians and hospitality workers to street performers and streetcar conductors. Each and every native is a unique thread in the custom quilt of New Orleans.
