Or choose from several dozen full-service wedding chapels.

DOWNTOWN LAS VEGAS

The downtown area is filled with classic casinos and delicious restaurants. The Fremont East Entertainment District, located in the heart of downtown, sits adjacent to the popular tourist attraction called Fremont Street Experience. Fremont East Entertainment District is an area that offers comedy clubs, blues and jazz nightclubs, and other musical entertainment venues.

LAKE MEAD NATIONAL RECREATION AREA

The Northshore Drive of Lake Mead National Recreation Area, Highway 167, can be reached by travelling highways 147 or 166. Created by the building of Hoover Dam in 1935, Lake Mead is the largest man-made lake in the United States. Fed by the Colorado River, boating and other water recreation sports are available year-round. Hoover Dam, named one of the top 10 construction achievements of the 20th century, is the highest concrete dam in the western hemisphere. Tours include the rustic history of this man-made wonder.

MUSEUMS

Beyond the neon, Las Vegas offers a diverse mix of fascinating cultural and civic attractions, as well as several interesting museums. You can travel back in time and learn about ancient civilizations, pet a dolphin or see representations of life-size dinosaurs on display. Children of all ages can enjoy hands-on interactive science exhibits. You can learn about everything from local plants and wildlife at the Springs Preserve to some local history at The Mob Museum downtown.

MOUNT CHARLESTON & LEE CANYON

Located 68 kilometres from Las Vegas in the Spring Mountains, Mount Charleston is an evergreen island in the Mojave Desert. Its peak reaches over 3600 metres into the Southern Nevada sky. The lower foothills are covered with pinyon pine and juniper; then comes the ponderosa pines and quaking aspen as the elevation increases. The Native Americans used this area to spend their summers, escaping the heat in the valleys below. The Spring Mountain/Mount Charleston area is home to Rocky Mountain elk, desert bighorn sheep, mule deer, wild Nevada mustangs and a variety of other wildlife. There are numerous hiking trails in the Mount Charleston area. Like Mount Charleston, Lee Canyon is located in the Toiyabe National Forest, offering snow skiing in the winter months and sightseeing and hiking in the summer and fall.

GRAND CANYON NATIONAL PARK

Vast, majestic, beautiful and the Gateway to the National Parks, the Grand Canyon is one of this country's - and the world's - most recognisable landmarks. It stretches 446 kilometres from end to end. Red, rocky walls descend more than a kilometre to the canyon's floor, where the majestic Colorado River carves out a raging southwest course. Most ground tours take you to the Grand

Canyon's main entrance on the South Rim, while others will take you to the North Rim. Its western edge, home to Havasupai Falls and the town of Supai, is also accessible via roads on the Hualapai Indian Reservation. About five million people see the kilometre-deep canyon every year, many of them on guided tours, and Grand Canyon National Park has established itself as one of the world's greatest natural attractions.
