

THE **NEW** EMPIRE STATE BUILDING

THE **NEW** EMPIRE STATE BUILDING. NEW EXPERIENCE, NEW EXHIBITS, AND A NEW WAY TO SEE NEW YORK.

EXPERIENCE SPECTACULAR VIEWS AND BRAND-NEW INTERACTIVE EXHIBITS IN THIS GLOBAL LANDMARK.

Soaring 1,454 feet above Midtown Manhattan from base to antenna, the Empire State Building is the World's Most Famous Building. Our 86th Floor Observation Deck, has been the setting of dozens of movie and television scenes, as well as tens of millions of unforgettable personal moments.

Our re-imagined Observatories are open daily from 8am-2am and offers the highest 360-degree, open-air vantage point in New York City. On a clear day, visitors can see up to six states— New York, New Jersey, Pennsylvania, Delaware, Connecticut and Massachusetts. From up here, your clients will get one-of-a-kind views of Central Park, the Hudson River, the East River, the Brooklyn Bridge, Times Square, the Statue of Liberty, and much more.

OUR HISTORY

Construction on the Empire State Building began on March 17, 1930, rising 4 1/2 floors per week, and was completed on March 31, 1931, a full month before the official opening ceremonies. This was the fastest construction to date for a project of its scale. In 1981, the building officially became a landmark and is hailed as the “World’s Most Famous Building.”

DOWNLOAD OUR APP

Guests can download the free Empire State Building Observatory Experience App which is available on the App Store and Google Play after connecting to the free Wi-Fi. The App is a self-guided, audiovisual tour and features fun facts, videos, light shows to music and more. Available in English, French, Italian, Japanese, Korean, Mandarin, Portuguese, Spanish and German.

GUESTS CAN EXPLORE OUR NEW INTERACTIVE EXHIBITS:

CONSTRUCTION

Inspired by the photography of Lewis Hine, guests will be transported back in time as hot rivets, and steel beams fly overhead, and the sounds of New York City come alive in surround sound. Guests can also interact with specially commissioned cast sculptures of construction workers as they work and take their lunch break.

KING KONG

Guests walk into an office from the 1930s where the famous, giant ape's fingers pierce the walls as he dangles from the building and dodges vintage fighter planes. Those brave enough can even step into Kong's hands – but beware, you might feel the power of this fearsome ape firsthand!

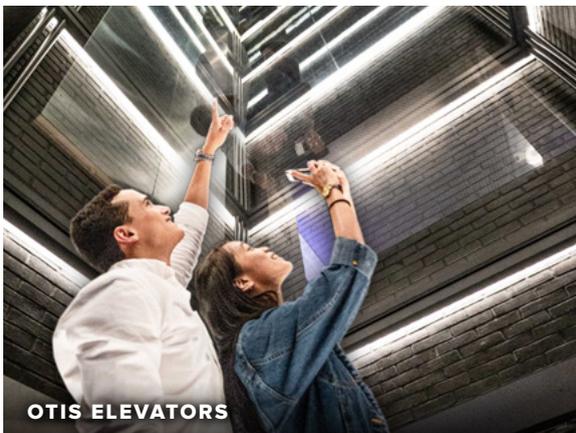

OTIS ELEVATORS

Otis delivered the groundbreaking technology that made the towering height of ESB possible. In a dedicated exhibit, Otis showcases not only how the original elevators operated, but teaches visitors about the latest technology installed in the newest elevators, which transports more than 10 million tenants and Observatory guests each year. Visitors will also walk through a simulation of an actual elevator shaft and feel the energy created by the movement of the cars up close.

WORLD'S MOST FAMOUS BUILDING

A sweeping 72-screen, 180-degree surround-sound theater reinforces the Empire State Building's place in pop culture with a montage of 600 clips from commercials, films, TV shows, comics, and games that feature the iconic building.

CELEBRITY

The Empire State building is a popular destination for A-list celebrities and worldwide talent with many famous faces from around the globe visiting its world-famous 86th Floor Observatory. This exhibit highlights some of the most-famous visitors (athletes, musicians, actors) with their images and signed memorabilia adorning the walls for guests to admire.

NYC: ABOVE AND BEYOND

Guests can now get oriented to New York City on the 80th Floor. The Empire State Building has partnered with NYC & Co. to create a new, interactive tourist visitor center designed to provide personalized travel recommendations to visitors from around the globe.
