### Experience Canyon Country

Located only minutes from the south rim entrance to the Grand Canyon, we have almost 12 acres of landscaped grounds to explore. You will love our new courtyard area complete with an indoor pool, spa and fitness center, as well as an outdoor pool, spa and splash pad. The Squire and the south rim are open year round. Relax in cool comfort in the summer by the pool. Enjoy toasty warmth by the fire under a starry sky in the winter.

No longer just a once in a lifetime visit, canyon country offers more than just an iconic sunset. A helicopter tour over the canyon stretching to the north rim and back will leave you breathless. Hummer tours, smooth water rafting and even sky diving will offer boundless adventure... and save time for the world's most watched IMAX film.

### Dining & Entertainment

Start the day with either our breakfast buffet or cooked to order classics in the Canyon Room. Our Coronado Room features fine dining with an extensive wine list. Relish appetizers and drinks at our Fireside Lounge. Have fun at our arcade with games, billiards and even a six lane bowling alley. Sample some amazing local brews at the Squire Pub. The only outdoor pool bar in town is where you want to be day or night. Updated, seasonal menus and buffets are sure to please.

### Explore the Southwest

The canyon is just a few hours drive from either Las Vegas or Scottsdale. We'll be happy to suggest itineraries that include Bryce and Zion (just a few of the National Parks and Monuments in the area), Antelope Canyon and Lake Powell, landing on tower butte in Monument Valley, Route 66, Bearizona or Montezuma's Castle and Sedona. With over 300 days of sunshine, the Southwest is eternally a year-round destination.

*"You cannot see the Grand Canyon in one view, as if it were a changeless spectacle from which a curtain might be lifted..." John Wesley Powell*

You simply will never see it all. Experience all four seasons in the canyon as each holds elements as fleeting as the desert in bloom. The Grand Canyon is a sensory dish...not just visual. It has its own smell, touch, taste and sound... allow it to awaken all of your senses. Let us be your guide.
